Reflected throughout the FY 2007 budget are the integration of performance measures and the incorporation of sound business practices in the Departments op-eration consistent with the Presidents Management Agenda. We also have estab-lished straight-forward operating principles which set the tone for further improving the management of the Department. These principles are: Accept no compromises in safety and security Act with a sense of purposeful urgency Work together, treating people with dignity and respect Make the tough choices Keep our commitments Manage Risk through informed decisions PROMOTING SCIENCE AND TECHNOLOGICAL INNOVATION As the millennium unfolds, we stand on the threshold of scientific revolutions in biotechnology and nanotechnology, in materials science, in fusion energy and high-intensity light sources, and in high-speed computing, to touch on only a few impor-tant fields. The nations that lead these scientific revolutions will likely dominate the global hi-tech economy for the foreseeable future. We are on the verge of major new discoveries about the nature of our universe, solutions to some of the deepest mys-teries of the cosmos and the fundamental understanding of matter - insights that will transform the way we think about ourselves and our world. The Presidents American Competitiveness Initiative will encourage American in-novation and bolster our ability to compete in the global economy through increased federal investment in critical areas of research, especially in the physical sciences and engineering. This initiative will generate...
