## Makerspaces in Libraries (Paperback)

By Theresa Willingham, Jeroen Deboer

ROWMAN LITTLEFIELD, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book. Makerspaces, sometimes also referred to as hackerspaces, hackspaces, and fablabs are creative, DIY spaces where people can gather to create, invent, and learn. In libraries they often have 3D printers, software, electronics, craft and hardware supplies and tools, and more. Makerspaces are becoming increasingly popular in both public and academic libraries as a new way to engage patrons and add value to traditional library services. Discover how you can create a makerspace within your own library through this step-by-step guidebook. From planning your innovation center to hosting hack-a-thons, guest lectures, and social events in your new lab, *Makerspaces in Libraries* provides detailed guidance and best practices for creating an enduring, community driven space for all to enjoy and from which both staff and patrons will benefit. This well researched, in-depth guide will serve libraries of all sizes seeking to implement the latest technologies and bring fresh life and engaging programming to their libraries. Highlights and best practices include: \*budgeting and business planning for a library makerspace, \*creating operational documents, \*tools and resources overviews, \*national and international case studies, \*becoming familiar with 3D...
