## Forest Structure and Fuel Loads at Jewel Cave National Monument: 2011 Status Report

By National Park Service

CreateSpace Independent Publishing Platform. Paperback. Book Condition: New. This item is printed on demand. Paperback. 38 pages. Dimensions: 11.0in. x 8.5in. x 0.1in. The Northern Great Plains Inventory and Monitoring Network (NGPN) and the Northern Great Plains Fire Ecology Program surveyed 60 forested plots in Jewel Cave National Monument (JECA) in 2011. This effort will be repeated in 2016 and every 5 years thereafter to better understand status and trends in forest vegetation. We measured tree stem density, tree diameter, live and dead tree condition, fire fuel loads, cover of exotic species, and disturbance in all plots. By using a randomized survey approach, we are able to use these data to estimate the status of the forest, not just of the plots, from the park as a whole. This item ships from La Vergne, TN. Paperback.

### Reviews

*An incredibly amazing ebook with perfect and lucid answers. It is written in basic terms and never difficult to understand. It's been written in an exceptionally basic way and it is only right after I finished reading this ebook in which it in fact modified me, affected the way I really believe.*

-- **Beverly Hoppe**

*Extremely helpful for all class of individuals. Better than never, though I am quite late in starting reading this one. I realized this publication from my I and dad suggested this ebook to discover.*
