Charles Darwin, The Descent of Man, p. 3. It is particularly interesting to note how many theorems, even among those not ordinarily attacked without the help of the Differential Calculus, have here been found to yield easily to geometrical methods of the most elementary character. Simplification of modes of proof is not merely an indication of advance in our knowledge of a subject, but is also the surest guarantee of readiness for farther progress. Lord Kelvin and Peter Guthrie Tait, Elements of Natural Philosophy, p. v. The simplicity with which complicated mechanical interactions may be thus traced out geometrically to their results appears truly remarkable. Sir George Howard Darwin, On Tidal Friction, in Treatise on Natural Philosophy. By Kelvin and Tait, p. 509. . .the absence of analytical difficulties allows attention to be more easily concentrated on the physical aspects of the question, and thus gives the student a more vivid idea and...
